The transport Thomas, from the Philippines, with the Ninth Infantry on board, under the command of Col. Edgar B. Robertson, arrived yesterday afternoon at 4:30 and will leave for the Coast this morning at 11 o'clock. A very pleasant trip is reported by those on board, with no incidents out of the usual run of affairs.

The first-class passengers all came ashore and spent the evening in the various hotels in the city, but the enlisted men and steamer passengers were not allowed to leave the boat. The Thomas made her regular schedule, reaching this city on time. She sighted only one vessel on the way over the Siberia, which left here for the Orient on last Monday afternoon.

The Thomas brought 929 passengers, all told, of whom 64 were army officers, and 512 were enlisted men of the Ninth. There were thirteen prisoners on board on their way to the Coast for punishment.

MANY STEAMERS ARRIVE.

The record for arrivals on a Sunday was broken yesterday in the Inter-Island fleet. No less than eight vessels of this company came in during the day. The first to arrive was the Noeau, which was alongside the wharf at 3 o'clock in the morning. The W. G. Hall, from Kauai, was the next to come in, and after her came the Iwaland, Nihau, Likilike, Helene, Maui and Ke Au Hou.

The Maui brought in the largest cargo of sugar of the day, having over 11,000 sacks of that product on board. The Helene brought 10,000 bags and the Likilike 8500. The cargo of the Nihau amounted to 300 bags of rice.

The Ke Au Hou brought fourteen seamen, members of the crew of the Alexander Gibson, a coal ship which has been discharging her cargo at Elele. The men are leaving the Gibson and will be paid off in this city.

The steamers all report fair weather, though the boats coming from Kauai report the channel as rather choppy.

NOEAU BRINGS WOOL.

The Noeau, which arrived yesterday morning from Hawaii, brought a large consignment of wool, which will be shipped to the Coast. There were 153 bales of this product on board. The Noeau also brought thirty cattle and five calves for the local market. Fine weather is reported on the entire trip.

WILL SHIP JAPANESE.

The Chinese crew on the British vessel Virginia, which sails for Sydney on Tuesday, will be paid off and will return to China on the China, sailing from here on August 7. Even the inducement of extra wages would not make them stay with the ship, as they wanted to get the free trip back on the Pacific Mail liner. A crew of Japanese will be shipped by Captain Crocker for his vessel.

FEDERAL FORCES CLASH.

Admiral Very's rule that no one with
the exception of army officers and their
friends shall be allowed on the trans-
port docks when a transport comes in
had a peculiar effect yesterday, when
marines, who were stationed at the
gate, refused admittance to the cus-
toms and immigration officers. News-
paper men and members of the local
police force were also barred, though
in their work of service to the public
they wished to be present before the
passengers left the ship.

Civilians who were walking with
army officers in uniform were allowed
to go on the dock without question,
but when unattached were stopped and
shoved back none too politely. In one
case a marine shoved a customs officer
off the dock by force, prodding him
in the back with a billy, to enforce the
orders which he had been given to ex-
ecute.

SAN PEDRO-SHANGHAI LINE.

San Pedro News—Local capitalists
and those interested in harbor matters
are much concerned regarding the re-
port that a new steamship line is to
be established between San Pedro and
Shanghai, China, and feel that the an-
nouncement made by W. Edwards of
Shanghai, China, special agent for the
China Import and Export Lumber Co.,
now a guest at the Alexandria, Los
Angeles, has great significance for San
Pedro.

The line, according to Mr. Edwards,
will be established for the purpose of
bringing oak lumber to this country
from China, and that San Pedro har-
bor will be the port for the company in
the southland.

Among the other plans which Mr.
Edwards says the company has in mind
is the installation of a lumber mill with
the capacity of 20,000 feet a day to be
built upon the harbor frontage at San
Pedro.

Mr. Edwards says the company he
represents is running a chartered line
of fifteen steamers from Seattle to
Shanghai, and has found that it can
ship oak logs from that country to
this, laying them down in Southern
California, for less than it costs to ship
them from Eastern points to Southern
California. Mr. Edwards says he has
been conferring with some of the large
lumber dealers of the country, and has
practically settled upon building at
San Pedro.

Mr. Edwards says the total ship-
ments which they propose to send in
to San Pedro would aggregate about
40,000,000 feet of lumber a year. He
says that this is the first attempt to
ship oak timber from the Orient to
California, and the industry gives
promise of being a big one.

EXPLOSIONS ON COLORADO.

SHANGHAI, July 3.—Two guns on
the armored cruiser Colorado blew up
while the ship was at target practise
at Chefoo. According to present ad-
vices no member of the crew was in-
jured by the explosion.

It is probable that the explosion was
the blowing off of the muzzles of two
of the larger guns. This has happened
several times in the navy and is
caused by erosion inside the muzzle of
the gun. While these accidents are of
the most serious character, they are
not always followed by injury or death
to any of the gun crews.—Manila

CURRENT COMMENT.

A RUSSIAN PASTIME.

If the human jaws need some occu-
pation in the intervals of meals and
gossip, says Health Culture, masticators
could learn a lesson from the peas-
ants of Southern Russia, who exer-
cise their teeth on the hard seeds of
the Caspian sunflower.

There is not a suspicion of a stimu-
lant about it, no chewing gum dyspep-
sia or navy plug nuisance.

It is a pastime, and incidentally an
excellent dentifrice.

In Astrakhan a pint of the seeds can
be bought for a quarter of a penny.

AUSTRALIAN HARDWOOD.

Recent official tests of the many val-
uable hardwoods native to Western
Australia have made known the ex-
traordinary properties of yate, believed
to be the strongest of all known woods.
Its average tensile strength of 24,000
pounds to the square inch equalling
that of good cast iron. But many spec-
imens are much stronger and one was
tested up to seventeen and one-half
tons to the square inch, which is equal
to the tensile strength of wrought iron.

NIAGARA ILLUMINATED.

Effective use has been made from
time to time of searchlights at Niagara
for illuminating the gorge, etc. Citiz-
ens of Niagara Falls now propose to
make a regular installation for the
purpose, and W. D. A. Ryan, the illu-
minating expert, is giving his atten-
tion to the subject. At night Niagara
is not seen except under moonlight,
and it is believed that some very beau-
tiful effects can be obtained by throw-
ing artificial daylight on the scene,
with color transitions.

TELEPHONES IN BANGKOK.

The Siamese minister of public works
has received the sanction of the king
to the proposal to acquire and install
an entirely up-to-date telephone sys-
tem in Bangkok. The system decided
on is the one known as the central
battery system. The installation will
go to public tender. Phya Sukhum is
now engaged arranging for a new cable
from Koh-Si-Chang to Sirachi with
connection to Bangkok.

LETTER STATISTICS.

The average number of letters per
inhabitant in the United Kingdom dur-
ing last year was 78, according to post-
office statistics, while in the United
States it was only 67. In New Zealand
it was 68; Switzerland, 59; Germany,
55; Denmark, 41; Austria, 38; Ar-
gentine Republic, 37; Luxembourg, 34;
Holland, 31; Belgium, 29; Sweden, 26;

and Portugal, below 20.

SPORTS

GOOD BASEBALL AT AALA PARK

Palamas and Kaalas Win in
Close Contests in Sun-
day Games.

There was the usual big crowd at
Aala Park yesterday afternoon to wit-
ness the games in the Riverside League.
Both games were close and exciting
and the spectators rooted like so many
wild Indians when the exciting mo-
ments arrived. The most interesting
feature of the day was in the last
inning of the contest between the Chi-
nese Alohas and the Kaalas. Kaimi,
the first man at the bat, hit into the
crowd at right-field and the ball was
thrown back in time to keep him from
making more than one base. The next
man sent a grounder to second on which
a double play was made. After this
had been done a Hawaiian came run-
ning up to tell the umpire that the
right-fielder of the Kaalas had not
thrown in the ball which had been hit
by Kaimi, but had thrown in one which
he had under his shirt. He claimed
that the ball hit by Kaimi had gone
into the river. A dispute was imme-
diately started out there was no proof
of the contention and Umpire Fernan-
dez was forced to let the play stand
as it was.

The first game between the Palamas
A. C. and the Japanese A. C. was very
good indeed, the Sons of Nippon put-
ting up a better game than they have
for some time past. Up to the seventh
Pitcher Roy Hoshino did very well, but
the four runs which were made in that
period clinched the game for the Pal-
amas though Jack Flores, the Japanese
crack pitcher, did all that he could to
stem the tide.

The second game was very close. The
Alohas did not have their regular
pitcher in the box but this position was
occupied by J. Kaimi, who did very
well. Ho Yip, the regular man, hurt
his hand while at work during the
week and will be out of the game for
some time. The Kaalas played good
ball all the way through and deserved
their victory.

POLO PRACTISE AT MOANALUA

With the exception of today and
Friday there will be hard work on the
polo field every day this week. The
Maui team will arrive Tuesday by the
Mauna Loa and will lose no time in
getting used to the field. Their ponies
are all in good shape, though one or
two are being carefully looked after
by Trainer Tommy Patterson, on ac-
count of slight lameness. They will
all be in condition for the first match,
which takes place on Saturday.

The Maui team will practise on Tues-
day and Thursday, while the Oahu team
will be on the field on Wednesday. On
Friday both teams will rest, in prepara-
tion for the contests on Saturday. The
Oahu ponies are all in good condition
and will give a good account of them-
selves. They are a fine lot and show
that care has been used in their selec-
tion. The class of ponies seen in the
game now is far superior to that which
has been used in the past, though some
of the old performers were hard to
beat. This, however, was only true of
a few mounts, while now there are
many which average up very well.

EHLERS TEAM WINS AGAIN

An interesting game was played yes-
terday morning at Makiki Park in the
Grocery and Dry Goods League.
Ehlers succeeded in defeating a com-
bination of Sachs and Whitney &

lined up as follows:

MORNING GAME AT AALA PARK

An interesting game of baseball was
played yesterday morning at Aala
Park between the Sweet Violets and
the C. C. C. team. The former were
victorious by a score of 6-4. The four
runs which the Violets scored in the
fifth inning were the ones which won
the game and were brought across the
plate by hard batting. The lineups and
score were:

Who is the man who wears such a pitiful look on his face? This, my
children, is the original man up a tree, who is working "on a job" a block from
the tree, and besides holding down the job is seeing the ball game at long
distance.

He does not know what is going on, but he can see the players moving
about and can hear the cheers of the fans. When they yell loudly he knows
that the home team is doing things to the visiting bunch and when the frivolity
is confined to a low rumble he knows full well that the out-of-town rooters
are trying to put a little ginger into their team and are weakly applauding
a good play.

He is in misery because he can not hear the umpire call the balls and the
strikes, or hear the fans curse him when he makes a bad decision. We must
give him credit, however, for doing the best he can under the circumstances
and remember that over them he has no control.

IN THE CIRCUIT COURT OF THE
THIRD JUDICIAL CIRCUIT, TER-
RITORY OF HAWAII.—AT CHAM-
BERS, IN PROBATE.

In the Matter of the Estate of James
